

Long-term Care Service Costs to Be Paid by the User

- ◆ Where long-term care services are used, long-term care insurance covers 90% or 80% of the service-related costs, while the remaining 10% or 20% are paid by the user (Note). In addition, beginning in August 2018, among users who have paid 20%, those with high incomes are required to pay 30% (see chart below). However, users are not required to pay for care plan development for home care support or care need prevention support.

※ 1: As for total income amount, refer to page, *2(1) and (2).

※ 2: "Other total income" means the amount from which the income regarding pension is deducted (the rest amount which the public pension income deduction, etc. are adjusted for public pension income)

<Maximum payout for in-home services>

- ◆ For in-home services, a maximum long-term care insurance payout applies for each service, depending on the level of long-term care required (see chart at right).

Note: The maximum payout is shown in units. The price-per-unit may differ depending on the area or type of service. The chart at right shows costs calculated at roughly ¥10 per unit.

- ◆ If service fees exceed the limit, the user is responsible for the co-payment indicated for the portion exceeding the limit.

Care level	Rough upper limits on monthly insurance benefit amounts
Support level 1	¥ 50,030
Support level 2	¥ 104,730
Care level 1	¥ 166,920
Care level 2	¥ 196,160
Care level 3	¥ 269,310
Care level 4	¥ 308,060
Care level 5	¥ 360,650
